## project

# NEW WORKSHOP AND OFFICES AT JARVIE PLANT

## Design and Build

### client

#### JARVIE PLANT LIMITED

This project involved the re-development of the existing plant hire yard, workshops and offices over a 10,000m<sup>2</sup> area.

Works were carried out in four phases allowing the client's business operations to continue from site during contract period.

The contract comprised the formation of drained hard-standing yard area, access roads, car parking and the formation of a 300m earth bund to the site perimeter with River Forth.; demolition of existing workshop/office facility and new build of a larger 2134m<sup>2</sup> facility with offices on two floors.

The building construction was formed of steel portal frame, built-up and composite cladding with reinforced concrete floors carried out over a 47-week programme. This £1.6m project was completed in early 2005.

### value

£1.6M
